

NEW JERSEY MILITIA

P.O. BOX 10176 TRENTON, NEW JERSEY 08650

United Nations General Assembly

Attn: Mr. Boutros Boutros Ghali,

Acting through the lawful assemblage of people, for the right of individual self preservation, the militia of New Jersey is dispatching this request to address the United Nations Assembly. If invited, both militias and patriot organizations throughout these united states will accompany the New Jersey militia, with their representatives, as one body to convey a true message of hope, tranquility and peace for the world.

Allow me please on behalf of millions and millions of my fellow countrymen to bring to the attention of this international body, that since its inception the world has not experienced peace, but, rather a constant epoch of hostility, better known as, war! We find that the United Nations charter is a charter of war and not peace. Thus, this in itself violates the entire structure of Americas Constitutions, its Bill of Rights, and subsequently the hope for true peace throughtout the world. The principles of the American Republic is indeed the light of the world. History does indeed prove that this limited form of government brought about the greatest achievements for mankind, thus happiness and prosperity was the order of the day.

We believe that true liberty can be proclaimed throughtout the land once again providing two requirements are met.

1. America must return to its founding principles which promoted justice for all.
2. This international body which sits upon American soil must relocate to foreign shores.

The structure of our American Republic was to be that beacon or model of hope for the world. It was never designed to be an aggressive force, invading and enforcing as a global cop the dictates of a world body! The sadness and sorrow America has experienced through its involvement with the United Nations will only increase with time, It is impossible to list on one sheet of paper or one hundred sheets of paper the atrocities committed against humanity by this inter-

national body, Therefore, in passing only a few comments will be made.

From its inception the United Nations was designed to be the seat of the New World Order. Through sworn testimony key figures from both the State and Treasury departments who were instrumental in shaping the United Nations Charter were identified as communist agents. It should be understood that communism is socialism on a international scale. Over one hundred thousand American lives were lost in the conflicts sponsored by the United nations thousands more were or still are POW, MIA, Elizabethville, Katanga 1960, Presidential Directive 25 putting American forces under foreign command. The continuous unlawful taxation that our government burdens us with under threat to support unconstitutional and anti-American organizations such as the United Nations, United Nations troops on American soil, National parks under direction of the United Nations Biosphere, Angola, the threat of global taxation, World Trade Organization, the possible patrolling of American streets with United Nations forces etc.etc..

America's first president, Mr. George Washington made reference to trade and commerce in his farewell address. He mentioned that it was acceptable providing there was the least amount of political influence. Of course over the years this sound advice has been negated and we now find America racing towards third worldism. As we slip away into oblivion through cunning deceit the United Nations has accumulated such wealth and power and is alining the militaries of the world under its command to be that global seat of authority. We hope that the United Nations will acknowledge this request to a public spirited discussion on the assembly floor.

Respectfully,
